Executive Summary

In this document, we intend to set out the terms for the Use and Dissemination of the Knowledge arising from MobiThin project in accordance with the partners interests (Article II.34.1 of the contract). A first version has been provided in D6.2 dated June 2008 [5].

It aims at providing a cumulative overview of the undertaken and planned project's activities; as it is an evolving document, it will be updated by the end of the project (June 2010 – D6.4) The final plan for Using and Disseminating the Knowledge that should be provided at the end of the project will also provide information on the future route to full use (exploitation or use in further research) and dissemination of the knowledge.

This deliverable is divided within 2 main parts:

- *Part I* is dedicated to the description of the dissemination measures, including any scientific publications relating to foreground. Its content will be made available in the **public domain** thus demonstrating the added-value and positive impact of the project on the European Community
- *Part II* is specifying the exploitable foreground and provides the plans for exploitation. **It will be kept confidential** and will be treated as such by the Commission.
